Dear colleagues and members of ICD,

Welcome to our 5th Indochina Conference of Dermatology (5ICD) and the 7th Annual Scientific Meeting of Cambodian Dermatological Society (7ASMCDs).

Despite the challenges with the COVID-19 pandemic globally over the last 2 years, it is with pleasure to announce that the 5th Indochina Conference of Dermatology and the 7th Annual Scientific Meeting of Cambodian Dermatological Society will take place in Phnom Penh, Cambodia this year. It will be held from the 2nd to the 3rd of December 2022 and attendees will have the opportunity to attend in person at the Sofitel Phnom Penh Phokeethra.

This year's theme - "The Challenges of COVID-19 Pandemic for Dermatology" brings together many local and international guest speakers to share their insights and experiences in treating difficult and challenging skin conditions. It will be a great opportunity to have all ICD society members, non-ICD members, medical students and exhibitors attend this event to share their knowledge and skills, as well as develop new working relationships with one another. During this occasion, guests will also have the opportunity to explore the capital city and other remarkable sites around the country at their leisure.
